TIMELINE

Monday, February 13, 2023	Email request from state for meeting with officials, state and FEMA Topics to discuss: • Placement of shipping containers in the Special Flood Hazard Area • Substantial Damage determinations and permitting of repairs • Market Value, Property Appraiser values, Private Appraisals • Unpermitted work violations and Code Enforcement • Town's floodplain management ordinance • Florida Building Code regulations
Tuesday, February 14, 2023	Letter from FEMA (Jacky Bell) Questioning LeePA value determinations and encouraging Fort Myers Beach to use methods other than LeePA when making substantial damage determinations
Friday, February 17, 2023	1:30 PM- meeting took place
Friday, February 17, 2023	Letter from FEMA (Jacky Bell) regarding market values used when making substantial damage determinations and notification of upcoming site visit
Tuesday, March 7, 2023	Meeting took place with FEMA and Charlie Baker RE: SD letters
Wednesday, March 8, 2023	Email form FEMA 9 (Charles Baker) Providing notice of substantial damage
Saturday, March 11, 2023	Substantial damage letters were mailed out per conversation in meeting on March 7, 2023
Wednesday, March 22, 2023	Letter form FEMA (Jacky Bell) retracting statements made in February 14, 2023 letter
Wednesday, April 5, 2023	Town reached out to FEMA RE: SD letters for guidance
Thursday, April 6, 2023	FEMA provided guidance, also had call with Jaqueline Henry
Friday, April 7, 2023	Follow up email from Jaqueline Henry noting our progress, introduced SDAP (Substantial Damage Administrative Plan) template
Thursday, June 8, 2023	Request for documentation from Jason Hunter.
Tuesday, June 13, 2023	Town responded with requested documentation for the June 8, 2023 request.
Saturday, June 29, 2024	Jaqueline Henry reached out requesting an in person visit for an update and to invite to SDAP workshop in October to help us with our plan
Thursday, September 14, 2023	Email from Jaqueline Henry stating SDAP training was canceled and to be rescheduled for 2024.
Thursday, September 21, 2023	Email from Jaqueline Henry to set up a day to meet
Wednesday, October 4, 2023	Meeting with Jaqueline Henry took place, requested SD list to be emailed
Wednesday, October 4, 2023	Town emailed SD list to Jaqueline Henry
Wednesday, December 6, 2023	Letter from FEMA (Jacky Bell) requesting information
Friday, January 12, 2024	Town submitted documentation to FEMA (Tamara Hansen, James Mascellino, Jason Hunter) with communication from Tammy Hanson stating they haven't received the documents yet as there was an issue with access.
Wednesday, January 17, 2024	All issues with access to the documents were sorted out and FEMA gained access to submitted documents.

TIMELINE

Thursday, February 29, 2024	Email from Jaqueline Henry requesting SD list updates, Town responded asking if they needed permit list as well
Thursday, February 29, 2024	Requested documentation was sent with a note stating that I am finally able to go through our list and update determinations.
Friday, March 1, 2024	Permit list was sent to Jaqueline Henry and Cristina Muresan Trott and a response email was to by Cristina Muresan Trott requesting the following: We are ONLY looking for the following information: • Number of permits issued for SD properties impacted by Hurricane Ian located within the floodplain: o Property must be located in SFHA (A, AE, V, VE, etc.), o Property is 50% or more damage, § Including appeals o Progress in the rebuilding (permits issued, inspection, appeals, violations, etc.), o Property compliance (final CO issued, elevated, demolished, etc.) On same day, Town responded that this is what we are in the process of completing and it will take a couple of weeks.
Wednesday, March 13, 2024	Invitation sent to attend SDAP workshop from Cristina Trott
Tuesday, March 19, 2024	Town received registration confirmation for SDAP workshop
Wednesday, March 27, 2024	Crytal Paulk-Buchan emailed- Request to Schedule Meeting: Update on Town of Fort Myers Beach NFIP CRS Rating
Thursday, March 28, 2024	Call took place to retrograde us out of CRS

Subject: RE: FEMA/State Contact

Importance: High

Good afternoon everyone. I am circling back on prior conversations about scheduling a meeting with the Town, FEMA, and the State. We (FEMA & State staff) will be in the Fort Myers Beach area later this week and would like to schedule the meeting for Friday, February 17, at 1:30pm or 2:00pm. Please let me know if you are available and if the Town has a space to meet.
Topics to discuss:

- Placement of shipping containers in the Special Flood Hazard Area
- Substantial Damage determinations and permitting of repairs
- Market Value, Property Appraiser values, Private Appraisals
- Unpermitted work violations and Code Enforcement
- Town's floodplain management ordinance
- Florida Building Code regulations

Best regards,
Conn

Subject: FEMA/State Contact

The Fort Myers Beach Chamber of Commerce has asked if they can orchestrate a meeting between those businesses on the island that have containers and other such structures that conflict with FEMA/State and Town regulations. I let her know it wasn't a political fix and that if they wanted the facts, they needed to speak with FEMA and the State directly rather than the Mayor and me. Can you refer me to the points of contact to include in a meeting?

FEMA

February 14, 2023

The Honorable Ray Murphy
Mayor, Town of Fort Myers Beach
2525 Estero Blvd
Fort Myers Beach, FL 33931

Dear Ray Murphy,

Local officials in communities that participate in the National Flood Insurance Program (NFIP) must determine whether the proposed construction work qualifies as a substantial improvement or repair of substantial damage (referred to as an "SI/SD determination"). If work on buildings constitutes SI/SD, structures must be brought into compliance with NFIP requirements for new construction, including the requirement that lowest floors be elevated to the Base Flood Elevation (BFE) plus one foot of freeboard as required by the Florida Building Code, or higher depending on local ordinance.

The SI/SD requirements are triggered when the local official determines that the cost to repair the damage or improve a building in a Special Flood Hazard Area (SFHA) equals or exceeds 50 percent of the building's market value (excluding land value). Enforcing the SI/SD requirements is a very important part of a community's floodplain management responsibilities. There are many factors that local officials will need to consider and several scenarios they may encounter while implementing the SI/SD requirements.

Assessed values from a county property appraiser can be a useful tool in determining market value for the purposes of an SD determination, but the use of an assessed value has some limitations that, if not considered and accounted for, can produce erroneous estimates of market value. It has come to our attention that the Lee County Property Appraiser is creating a product designed for homeowners to use to determine a market or just value for their property. While NFIP regulations do not define market value, they do state that market value must be based on the condition of the structure before the damage occurred.

Because property appraisers often perform mass appraisals based upon statistical analyses of the previous year's sales data in between actual physical appraisals, which may occur as infrequently as once in a decade or longer, these values must be adjusted carefully to be used for a SD determination. The product created by the Lee County Property Appraiser adjusts portions of the property's valuations; however, we have observed a wide disparity in how these adjustments are applied. Consistency is key when making SD determinations to have a defensible process, and without knowing how these adjustments are being calculated, we cannot determine if these values are acceptable.

Making SD determinations is the sole responsibility of the local Building Official or Floodplain Administrator; however, FEMA is tasked with assessing community compliance with the minimum NFIP criteria, including SD determinations. If a community is found to be making incorrect SD determinations based upon inaccurate market values, they risk a retrograde of their Community Rating System (CRS) level, meaning a loss of premium discount for their residents or further sanctions to include probation or suspension from the NFIP. We strongly recommend using methods other than the product created by the Lee County Property Appraiser.

We share the community's goal of remaining in good standing in the NFIP. As always, we stand ready to provide additional guidance and support to Lee County and incorporated communities by discussing acceptable methods and procedures for determining market value. If you have questions, please contact Jamie Mascellino at james.mascellino@fema.dhs.gov or 407-716-9528.

Sincerely,

Jacky S. Bell

FEMA

February 17, 2023

The Honorable Dan Allers
Mayor, Town of Fort Myers Beach
2525 Estero Blvd
Fort Myers Beach, FL 33931

Dear Mayor Allers,

We would like to provide clarification for the February 14, 2023 letter sent to Lee County, Florida and incorporated communities, regarding market values used when making substantial damage determinations.

Communities are eligible for participation in the National Flood Insurance Program (NFIP) if they have land-use authority. Participating communities adopt and enforce regulations that meet or exceed minimum standards in Title 44 of the Code of Federal Regulations and are responsible for reviewing permit applications, making compliance determinations, and issuing permits. This authority includes:

- defining market value in locally-adopted regulations; and
- reviewing submitted market value when making substantial damage determinations to ensure that values are determined using a sound, consistent methodology.

County property appraisers have the authority to assess the value of real property and are charged with deriving property valuations taking into consideration various factors. FEMA will coordinate with the Lee County Appraiser to better understand the methodology used to determine the property valuations issued after Hurricane Ian.

As the administrator of the NFIP, it is FEMA's responsibility to provide technical support. In coordination with the State NFIP Coordinator we are currently scheduling visits with local floodplain administrators within Lee County to provide technical support and ensure that communities are uniformly enforcing their floodplain management regulations. If you have any questions, please contact Jason Hunter at jason.hunter@fema.dhs.gov or 770-220-5471.

Sincerely,

Jacky S. Bell
Director
Mitigation Division

Subject: Providing Notice of Substantial Damage

Dear Fort Myers Beach,
The following Ordinance No. 17-09, for the duties and powers of the floodplain administrator, sets forth for the notification of Substantial Damage as required by the community floodplain management regulations and building code. Various excerpts and guidance follows, outlining the many references to substantial damage which can be found in the community floodplain management regulations, building codes, and minimum standards for participation in the National Flood Insurance Program. As stated in 60.1 of 44 Code of Federal Regulations, these regulations must be legally-enforceable, applied uniformly throughout the community; therefore a community must be fair and equitable in the administration of their regulations which includes monitoring development for compliance.

ORDINANCE NO. 17-09

AN ORDINANCE BY THE FORT MYERS BEACH TOWN COUNCIL AMENDING THE TOWN OF FORT MYERS BEACH CODE OF ORDINANCES TO AMEND FORT MYERS BEACH LAND DEVELOPMENT CODE CHAPTER 6; TO ADOPT TECHNICAL AMENDMENTS TO THE FLORIDA BUILDING CODE; PROVIDING FOR APPLICABILITY; REPEALER; SEVERABILITY; AND AN EFFECTIVE DATE.

ARTICLE IV. FLOODPLAIN REGULATIONS

DIVISION 3. DUTIES AND POWERS OF THE FLOODPLAIN ADMINISTRATOR

Sec. 6-424. Substantial improvement and substantial damage determinations.

For applications for building permits to improve buildings and structures, including alterations, movement, enlargement, replacement, repair, change of occupancy, additions, rehabilitations, renovations, substantial improvements, repairs of substantial damage, and any other improvement of or work on such buildings and structures, the Floodplain Administrator, in coordination with the Building Official, will:

(1) Estimate the market value or require the applicant to obtain an appraisal of the market value prepared by a qualified independent appraiser, of the building or structure before the start of construction of the proposed work; in the case of repair, the market value of the building or structure will be the market value before the damage occurred and before any repairs are made; any appraisal used for the purposes of substantial improvement/substantial damage determinations must be current within one year of work commencing;

(2) Compare the cost to perform the improvement, the cost to repair a damaged building to its pre-damaged condition, or the combined costs of improvements and repairs, if applicable, to the market value of the building or structure;

(3) Determine and document whether the proposed work constitutes substantial improvement or repair of substantial damage; ~~the determination requires evaluation of previous permits issued for improvements and repairs as specified in the definition of "substantial improvement;"~~ and for proposed work to repair damage caused by flooding, the determination requires evaluation of previous permits issued to repair flood-related damage as specified in the definition of "substantial damage;" and

(4) Notify the applicant if it is determined that the work constitutes substantial improvement or repair of substantial damage and that compliance with the flood-resistant construction requirements of the *Florida Building Code* and this article is required.

FEMA publication 480, National Flood Insurance Program (NFIP) Floodplain Management Requirements, A Study Guide and Desk Reference for Local Officials, in Unit 10: Disaster Operations and Hazard Mitigation, Building Condition Survey does provide a methodology for notification:

Conduct

The building condition survey is conducted from outside all buildings, usually from a vehicle. Depending on the severity and duration of flooding, the survey may be conducted concurrently with the emergency manager's initial damage assessment.

On your work maps, code each building with an "A," "B" or "C" for the three categories of building condition:

A - Apparently safe: No exterior signs of structural damage. People can be allowed back in, but they will need building permits for repairs.

B - Building obviously substantially damaged: The flood swept the building away, it has collapsed or it is missing one or more walls. The building cannot be reoccupied without major structural work.

C - Could be substantially damaged: The building may be substantially damaged, but such damage is not obvious. Any building with more than two feet of water over its first floor falls in this category.

When the field work is done, summarize the survey findings and plot them on a master mitigation map. Use color coding, so areas coded B and C—those that are or may be substantially damaged—will stand out.

Notice to owners

Upon completing the survey, hand-deliver a letter to each property surveyed, including those assessed as apparently safe. Each letter should include the building's address and, where known, the owner's name. A sample letter is in Figure 10-1.

Keep copies in the permit office and start a file on each property designated as "B—Building obviously substantially damaged" or "C—Could be substantially damaged."

With the letter include a copy of the FEMA/Red Cross book, *Repairing Your Flooded Home.* You can get supplies of them from FEMA or the Red Cross.

If too few copies are available, you may reproduce your own and even include your community's name on the cover. FEMA and the Red Cross encourage this, as it will make the book more pertinent to local readers.

Florida Disaster Community Resources:
https://www.floridadisaster.org/dem/mitigation/floodplain/community-resources/
Flood Provisions of the 7th Edition of the Florida Building Code, as prepared by the Florida Department of Emergency Management:
https://portal.floridadisaster.org/mitigation/SFMP/External/Community%20Resources/Florida%20Building%20Code%20Resources/7th%20Ed_FBC_FloodProvisions_Nov2020r.pdf
Excerpts from 44 Code of Federal Regulations (CFR)
Subpart A – Requirements for Floodplain Management Regulations
60.1 Purpose of the subpart
(b)This subpart sets forth the criteria developed in accordance with the Act by which the Federal Insurance Administrator will determine the adequacy of a community's flood plain management regulations. These regulations must be legally-enforceable, applied uniformly throughout the community to all privately and publicly owned land within flood-prone, mudslide (i.e., mudflow) or flood-related erosion areas, and the community must provide that the regulations take precedence over any less restrictive conflicting local laws, ordinances or codes. Except as otherwise provided in § 60.6, the adequacy of such regulations shall be determined on the basis of the standards set forth in § 60.3 for flood-prone areas, § 60.4 for mudslide areas and § 60.5 for flood-related erosion areas.

60.3(a)(3), (b)(4), (c)(2), (c)(3), (c)(5), (c)(6), (c)(7), (c)(8), (c)(10), (c)(12), (d)(3), (e)(4), (e)(5) all mention substantial improvement of which substantial damage is a subset per definitions in 44 CFR 59.1
Substantial Improvement/Substantial Damage Desk Reference:
https://www.fema.gov/sites/default/files/2020-08/fema_p_758_complete_r3_0.pdf
Chapter 5 covers Administering Substantial Improvement and Substantial Damage Requirements
In conclusion, FEMA is in charge of administering and monitoring compliance with participation in the National Flood Insurance Program (NFIP). The participating community is task with adopting and enforcing the minimum standards required for participation in the NFIP. FEMA provides guidance and paths to achieve this, however; ultimately it is the community who must develop processes to achieve compliance and risk reduction in their community. In the matter of Substantial Damage, past events have shown the more efficiently and expedited notification is sent to residents the clearer expectations and requirements are on the recovery process, hence the push for determinations and notification to be made post event.
Please feel free to reach out with further questions in achieving risk reduction in your community.
Thank you,
Charles Baker

March 22, 2023

Keith Wilkins
Interim Town Manager, Town of Fort Myers Beach
2525 Estero Blvd
Fort Myers Beach, FL 33931

Dear Keith Wilkins,

This is a follow up to my letter of February 14, 2023, regarding the methodology used to determine pre and post Hurricane Ian property values in Lee County.

Our initial understanding was that the Lee County Property Appraiser had created a product for homeowners to determine a market or just value for their property, and there was a wide disparity in how the post Ian adjustments were applied. This led to the recommendation conveyed in my initial letter, that Lee County use methods other than the product created by the Lee County Property Appraiser.

My staff recently met with Matt Caldwell, Lee County Property Appraiser, members of his staff, and Lee County government officials, for a briefing on the methodology. Mr. Caldwell explained the methodology, and how it was used to establish the post-Hurricane Ian market values. We confirmed that the market values provided to property owners post-Hurricane Ian were set in January 2022. We now know there were no post-Hurricane Ian methodology adjustments. The authority to determine market value rests with the local National Flood Insurance Program (NFIP) participating communities and we no longer recommend these communities avoid using the values created by the Lee County Property Appraiser.

FEMA in coordination with the State NFIP Coordinator, will continue to work with local floodplain administrators in Lee County to provide technical support and ensure that communities uniformly enforce their floodplain management regulations.

If you have any questions, please contact Jason Hunter at jason.hunter@fema.dhs.gov or 770-220-5471.

Sincerely,

Jacky S. Bell, Director
Mitigation Division

Good afternoon Jason and Kristine,

Attached is the fact sheet on Increased Cost of Compliance Coverage (ICC). Additional information can be located at Increased Cost of Compliance Coverage | FEMA.gov which provides Q & A for homeowners and forms. Unfortunately, the home must be damaged by flood. Hopefully the homeowner was able to document the damage before starting to clean up, including photographs and/ or videos, to show the extent of building damage and building contents. It should be noted that the homeowner has 60 days from receipt of the letter to submit an ICC Proof of Loss that your insurance carrier provides to you. The insurance carrier will verify that you are eligible for ICC coverage and you will be assigned a separate adjuster to help complete the ICC claims process so you can start repairing the structure.

I hope I was able to address your questions.

Charles,

Thanks for the quick response, just as an FYI Kristin's email is Kristin.Schumacher@fmbgov.com and I am adding her to this response. Thanks!

Jason Smalley

Good Morning Charles,
Now that we sent out the substantial damage letters, we are getting requests back from people making their ICC claims to change our letters to state that the damage was caused by flood. I do not know that we could determine that the damage was caused by flood. What is your guidance on this stance?

FEMA

Fact Sheet

Federal Insurance and Mitigation Administration

Increased Cost of Compliance Coverage

The National Flood Insurance Program: Building Smarter and Safer

Increased Cost of Compliance (ICC) coverage is one of several resources for flood insurance policyholders who need additional help rebuilding after a flood. It provides up to $30,000 to help cover the cost of mitigation measures that will reduce flood risk. ICC coverage is a part of most standard flood insurance policies available under the Federal Emergency Management Agency's (FEMA's) National Flood Insurance Program (NFIP).

Reducing Future Damage

ICC coverage provides payment to help cover the cost of mitigation activities that will reduce the risk of future flood damage to a building. When a building covered by a Standard Flood Insurance Policy suffers a flood loss and is declared to be substantially or repetitively damaged, ICC will pay up to $30,000 to bring the building into compliance with State or community floodplain management laws or ordinances. Usually this means elevating or relocating the building so that it is above the base flood elevation (BFE). Non-residential structures may also be floodproofed. ICC coverage applies solely to buildings and only covers the cost of the compliance measures undertaken. It is filed separately from the normal flood insurance claim.

Determining Who is Eligible

In addition to being insured under the NFIP, a building must meet one of two conditions to be eligible to receive ICC coverage; it must have been either 1) determined to be substantially damaged or 2) meet the criteria of a repetitive loss structure.

- Substantial damage is the determination by the community that damage due to flood has equaled or exceeded 50 percent of the value of the building. When repaired, the building must meet local floodplain management ordinances. If the total damage from flooding is less than 50 percent of the market value of the building, ICC coverage is not available.
- Repetitive loss means that a building covered by flood insurance incurred flood-related damage two times over a period of 10 years, and that the cost of the repairs was, on the average, at least 25 percent of the market value of the building before the damage occurred each time. This applies only if the community has adopted a repetitive loss provision in the local floodplain management ordinance, and a flood insurance claim must have been paid in both cases. The combined damage total must be 50 percent of the value of the building before the damage occurred, but it need not be evenly distributed. So, if the damage was 35 percent of the value of the building in the first event and 15 percent of the value of the building in the second event, the policyholder would qualify for ICC coverage.

FINDING ADDITIONAL POLICYHOLDER INFORMATION

FEMA encourages flood insurance policyholders whose homes are damaged extensively by flood to ask their claims adjusters or insurance agents about ICC coverage.

People can get more information online at: http://www.fema.gov/library/viewRecord.do?id=3010 or by calling their insurance agents.

National Flood Insurance Program

Meeting Compliance Standards

ICC coverage can help pay for four different types of mitigation activities to bring a building into compliance with the community's floodplain management regulations:

- Elevation is the most common means of reducing a building's flood risk. The process consists of raising the building to or above the BFE. While NFIP policy only requires the lowest floor of the building to be raised to the BFE, some States and communities enforce a "freeboard" requirement, which mandates that the building be raised above the BFE to meet the community's flood protection level.
- Floodproofing applies only to non-residential buildings. For a building to be certified as floodproof, it must be watertight below the BFE – the walls must be substantially impermeable to water and designed to resist the stresses imposed by floods. Floodproofing techniques include installation of watertight shields for doors and windows; drainage collection systems, sump pumps, and check valves; reinforcement of walls to withstand floodwater pressures; use of sealants to reduce seepage through and around walls; and anchoring the building to resist flotation, collapse, and lateral movement.
- Relocation involves moving the entire building to another location on the same lot, or to another lot, usually outside the floodplain. Relocation can offer the greatest protection from future flooding; however, if the new location is still within the Special Flood Hazard Area (SFHA), the building must be NFIP-compliant, meaning it must be elevated or floodproofed (if non-residential).
- Demolition may be necessary in cases where damage is too severe to warrant elevation, floodproofing, or relocation; or where the building is in such poor condition that it is not worth the investment to undertake any combination of the above activities. All applicable permits must be obtained prior to demolishing the building. The property may be redeveloped after demolition is complete, subject to all applicable Federal, State, and community laws and requirements.

Using ICC in Concert with FEMA Mitigation Grants

In some cases, individual policyholders can take advantage of Federal grant money to supplement the cost of mitigation activities. Policyholders can assign their ICC benefits to their community and enable the community to file a single claim on behalf of a community mitigation project. FEMA will count the ICC claim monies as non-Federal matching funds when applying for mitigation grants, because ICC coverage is a direct contract between the policyholder and the insurer. The community can then use FEMA mitigation grant funds to help pay for any additional portion of the cost of elevation, floodproofing, relocation, or demolition that is more than the ICC claim payment. It is extremely important for policyholders and community officials to work closely together at every stage of this process. Individual participation in a FEMA-funded community mitigation project is voluntary and the community is required to provide mitigation funds to any property owner whose ICC payment was counted towards the matching funds.

For More Information

For obtain more information on ICC coverage, visit: http://www.fema.gov/library/viewRecord.do?id=3010.

Subject: RE: Hurricane Ian SD Determination as of 4/6/23
Attachments: SDAP Plan Template.docx; BLANK Community Data Master Spreadsheet.xlsx

Hey Kristin,
Thank you for taking the time out of your busy schedule regarding the current recovery/compliance status on SD determinations.
Thank you for sending the SD letter of determination spreadsheet containing 1131 structures that were mailed to your community. This spreadsheet should contain the permit numbers for tracking purposes. (see attachment above) And any other structures that are being repaired through the completion of occupancy. Tracking of all SD in the SFHA during this event will be on going for quite some time.
As we discussed ariel fly overs of the hurricane damage occurred on Oct. 1 2022 and again on Jan.8 2023. Which is documented in the Lee County property appraisers GIS platform.
No water marks were utilized to identify depth of the water.
ICC concerns over structure owners receiving letter from ICC Insurance carrier(i.e.: State Farm) stating that the SD letter to the community must state the word FLOOD to receive potential ICC benefits. Still waiting on clarification from headquarters. Will get back with you regarding this letter.
Contractor from CDR (1206) was hired to assist with code enforcement and violations associated. The work that was completed by this company has put the community a month behind with mistakes that were made.
As I rode around the Island, I do see that progress being made. Permits are now being displayed which shows the diligence and hard work in the recovery of Fort Myers Beach.
To help track the ongoing permitting process (monthly updates) Please find the attached suggested excel spreadsheet with a single form that can be sent to me, as well as data retention record for your community.
Could you please send the requested copy of your (see above) administrative plan on SD (it could possibly earn additional CRS points please see attachment). I will forward a copy to the state and the region.
Looking forward to our continued meetings and if I can support you in any way, please don't hesitate.
Best to you
Jackie

SUBSTANTIAL DAMAGE ADMINISTRATIVE PROCEDURES PLAN

[Name of Community]

PURPOSE AND USE

The purpose of this document is to outline how [Name of Community] will administer and implement steps to make Substantial Improvement/Substantial Damage (SI/SD) determinations. Communities that participate in the National Flood Insurance Program (NFIP) must adopt and enforce floodplain management regulations that include requirements for SI/SD structures, as defined in 44 CFR 59.1.

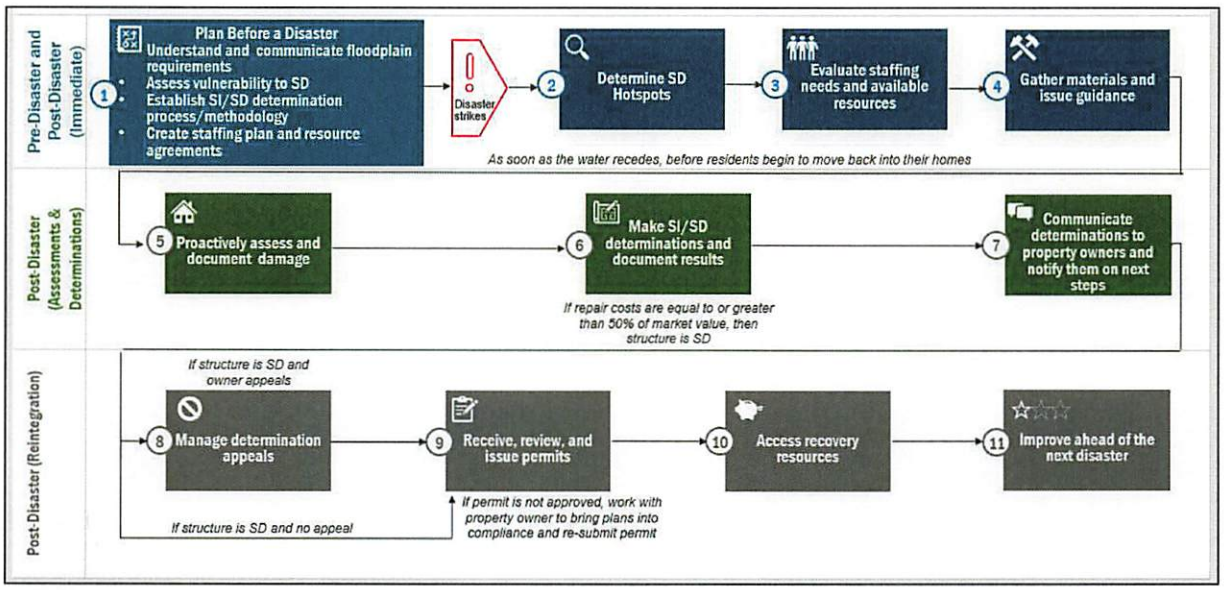
Improvements to structures in the regulated floodplain that equal or exceed 50% of the market value, including improvements undertaken after being substantially damaged during a disaster, must comply with local floodplain management regulations. This often means that structures cannot simply be rebuilt to pre-damage conditions. Local officials must ensure that all permits issued for reconstruction comply with local regulations.

This document captures all procedures in one easy, accessible place to make [Name of Community] more prepared if disaster strikes. This includes plans, procedures, and processes for actions taken pre-disaster ("blue skies"), immediately following a disaster event, and post-disaster. This document serves as a plan to be used in both day-to-day SI/SD operations as well as all disaster events, to include all types of hazards (flooding, wind, fire, etc.), small and large events, and presidential-declared or non-declared events.

This plan was compiled and prepared by [Name of Community]. The template for this document was created by the Federal Emergency Management Agency (FEMA).

Timeline of Substantial Damage Operations

The SDAP Plan follows the graphic below, and has four main sections: Plan Before a Disaster; Post-Disaster: Immediate Coordination; Post-Disaster: Assessments & Determinations; and Post-Disaster: Reintegration. Each section contains procedures, practices, and additional information about critical planning and response tasks to consider in administering and enforcing SI/SD requirements.



How To Use This Plan Template

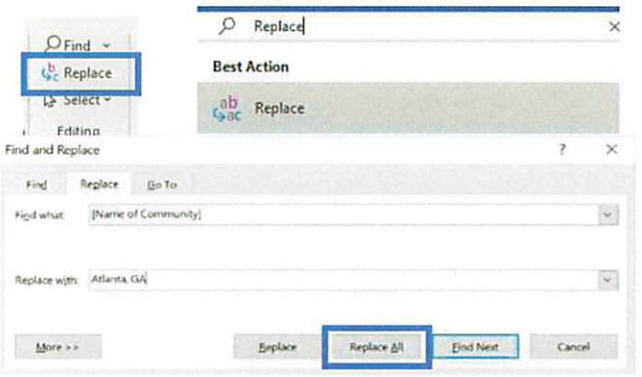
This SDAP Plan belongs to [Name of Community]. It is a "living document"—one that evolves and can be updated over time as regulations, procedures, staff, and experience change. The SDAP Plan is meant to serve [Name of Community] and [Name of Community] only—updates, additions, edits, and more are encouraged! See below for instructions on how to format, fill out, and finalize this document.

Getting Started

Replace [Name of Community]

Before you go any further, follow these steps to add your community's name to the document. "[Name of Community]" is found throughout this template. To update this to your community's name, follow these instructions:

1. On the Home ribbon, select Replace in the Editing menu. Alternately, type Replace in the search bar.
2. In the Find What box, add [Name of Community].
3. In the Replace With box, add the name of your community and state. For example, Atlanta, GA.
4. Click Replace All for the SDAP Plan to be customized throughout.



Gather the Right People

Consider who needs to be involved in developing your community's SI/SD administrative procedure. First, identify the primary individual or office who is responsible for regulating development in the floodplain. Other community staff may be involved, so make sure to include them in this process early, to ensure you capture the right information from the right people and find the integration opportunities between departments.

This might include:

- Floodplain Administrator (FPA)
- Zoning Administrator
- Building Code department staff
- Highest elected official (Chief Elected Officer, Mayor, Town Manager, etc.)
- Emergency management officers
- Law enforcement staff
- CRS Coordinator
- State NFIP Coordinator
- Others? Consider your available staff!

Gather the Right Documents

Consider the existing documents to gather prior to filling out this SDAP Plan. Collecting these documents, or at least knowing their location, can assist you as you fill out the SDAP Plan template.

This might include:

- Standard operating procedures (SOPs) related to SI/SD support
- Ordinance/emergency ordinance development, enacting, and enforcement procedure(s)
- Permitting/emergency permitting procedure(s)
- Documentation of pre-and post-flood insurance rate map (FIRM) structures within the regulated floodplain
- Maps of potential SD areas and/or databases and lists of properties located in the regulated floodplain
- Emergency Management Assistance Compact (EMAC) agreements
- Tracking ongoing activities with SI/SD determinations outside of incidents
- State SD Plan, if available
- Other state templates and resources, if available

Filling Out the SDAP Plan Template

Adding Inputs to the SDAP Plan

The SDAP Plan is a template to help organize and consolidate existing procedures, as well as highlight any gaps or remaining needs. This template uses fill-in-the-blank boxes. These boxes, highlighted in blue, indicate where input is requested and the italicized text in each box explains what should be included. This black instructional text disappears once input is added, but if you remove your input, this instructional text returns.

Once input is added, the text box removes the blue highlight, and the text remains italicized. This is to differentiate inputs from template text.

Remember that inputs are the direct content in the plan—think about what information is useful throughout the timeline of SD operations, and what kinds of details are needed to document instituional knowledge and procedures. Include acronyms, specific steps and procedures, links to documents, and responsible parties as this information is available.

Making Updates to the SDAP Plan

You are encouraged to make updates, add, or remove text, and change the formatting so that the document meets your community's needs.

In the event that once-irrelevant content was removed but may now be needed, many of the sections of this SDAP Plan template follow a similar set of questions:

- [Name of Community] *has/does not have* [item].
- This [item] is maintained by *Add responsible department/POC* and can be found here: *Add resource link or location.*.
- A description of [item] can be found here: *Add description.*.

The above can be copied and pasted anywhere relevant throughout the document.

Submitting for Community Rating System Credit

The Community Rating System (CRS) is a voluntary incentive program that recognizes and rewards communities for going above and beyond the minimum requirements of the NFIP with discounted flood insurance premium rates. A variety of items in the SDAP Plan template can contribute to CRS credits. This document can be used to develop a CRS Substantial Damage Management Plan (SDP). Throughout this document, we have flagged items that pertain to CRS SDP 1, 2, and 3 and CRS Activity 430 that go above and beyond a basic substantial damage plan with an orange circle with a black outline: ●

While these items are not critical to effectively administering and enforcing substantial damage, they may be beneficial to [Name of Community] regardless of CRS status. If interested in applying for these CRS credits, it is necessary to work directly with the CRS Specialist[1] for the state and/or region. Additional information about the CRS application process, requirements, and expectations can be found here: Community Rating System.

[1] Note that https://www.crsresources.org is a stand-alone website separate from FEMA.gov. At the time of this document's publication, the list of CRS Specialists by state and FEMA Region along with contact information are not available on FEMA.gov.

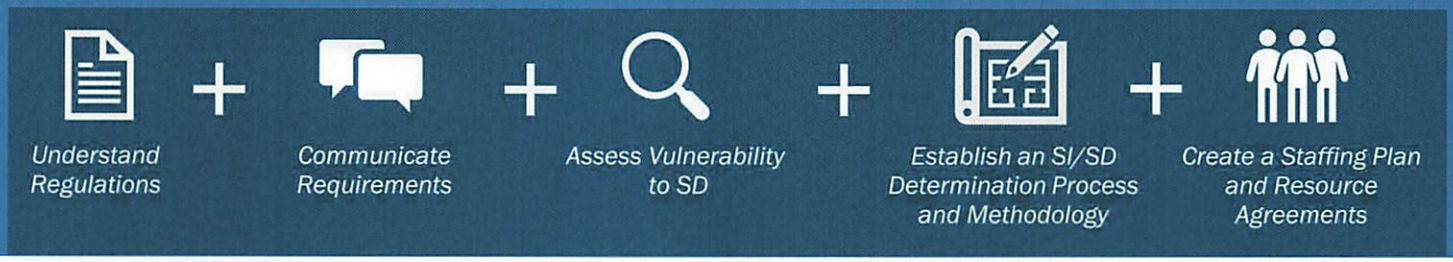
TABLE OF CONTENTS

Purpose and Use 1
Timeline of Substantial Damage Operations 1
How To Use This Plan Template 2
1 Plan Before A Disaster 5
Understand Regulations 5
Communicate Requirements 6
Assess Vulnerability to SD 7
Establish an SI/SD Determination Process and Methodology 8
Create a Staffing Plan and Resource Agreements 9
Post-Disaster: Immediate Coordination 12
2 Determine SD Hotspots 12
3 Evaluate Staffing Needs and Available Resources 13
4 Gather Materials and Issue Guidance 15
Post-Disaster: Assessments & Determinations 16
5 Proactively Assess and Document Damage 16
6 Make SI/SD Determinations and Document Results 17
7 Communicate Determinations to Property Owners and Notify them of Next Steps 17
Post-Disaster: Reintegration 19
8 Manage Determination Appeals 19
9 Receive, Review, and Issue Permits 19
10 Access Recovery Resources 20
11 Improve Ahead of the Next Disaster 20
Additional Information 22

1 PLAN BEFORE A DISASTER

Before a disaster ever strikes, it is important to understand definitions, requirements, and existing procedures in [Name of Community] that guide our authority and activities after an event.

The items in this section can be done concurrently. Unlike the other sections of this document, these are not in sequence—planning ahead of a disaster can happen at any time.



Understand Regulations

Communities that participate in the NFIP must adopt and enforce regulations that apply to structures in their regulated floodplains and, at a minimum, meet the NFIP definitions of substantial improvement and substantial damage. These standards outline the exact definition of SI/SD and any legal requirements pertaining to post-disaster permitting in [Name of Community]—understanding these regulations are part of a strong foundation of floodplain management.

SI/SD Definition

Community definition of Substantial Improvement and Substantial Damage: *Add the community's definition of Substantial Improvement and Substantial Damage.*

Regulations and Legislation

SI/SD structures in [Name of Community] are defined and regulated according to the following regulations and legislation. These should be referenced to determine the definition of SI/SD and any legal requirements pertaining to post-disaster permitting.

Code/Ordinance	Title of Regulation(s)	Document location or link	Responsible Department/POC	Effective Date
Building Codes	*Add Title of Regulations*	*Add Document Location or Link*	*Responsible Department/POC*	*Effective Date*
Floodplain Ordinance	*Add Title of Regulations*	*Add Document Location or Link*	*Responsible Department/POC*	*Effective Date*
Zoning/Land Use Ordinance	*Add Title of Regulations*	*Add Document Location or Link*	*Responsible Department/POC*	*Effective Date*
Other	*Add Title of Regulations*	*Add Document Location or Link*	*Responsible Department/POC*	*Effective Date*

Higher Standards

Higher standards for substantial damage and substantial improvement, meaning regulations adopted by [Name of Community] that go beyond the minimum NFIP standards, can be found in *Add title of regulations* and include the following provisions: *Add SI/SD higher standards language from regulations*.

Appeals Regulations

[Name of Community] *has/does not have* provisions that regulate the appeals process for *development in the floodplain and/or SI/SD* in its regulations. This can be found in *Add title of regulation(s)* as described here: *Add appeals language from regulations.*.

Post-Disaster Permitting Regulations

[Name of Community] *has/does not have* post-disaster permitting. These are established and regulated in *Add title(s) of regulation(s)*, maintained by *Add responsible department/POC* and was last updated on *Add effective date.*. This includes the following provisions: *Add post-disaster permitting language from regulations.*

Communicate Requirements

While floodplain management staff may be familiar with SI/SD requirements, it is important that other members of the community are, too. This includes communicating with community officials, including elected officials and those in charge of community management, and property owners and residents in the community. This ensures that the community members know what to expect when a disaster strikes.

Communicate SI/SD Requirements with Local Officials

The staff person responsible for communicating the importance of SI/SD requirements to community officials in [Name of Community] is *Add name and title.*. This person can be reached at *Add contact information*.

[Name of Community] staff engage local officials in the following ways to ensure they understand and prioritize SI/SD compliance requirements before a disaster happens: *Add description of methods*.

Communicate SI/SD Requirements with the Public

[Name of Community] *has/does not have* a strategy and associated products (a communications plan, social media strategy, website update schedule, etc.) for pre-disaster public communications. The strategy and associated products can be found here: *Add resource location(s) or link(s)*. It is maintained by *Add responsible department/POC.* and was last updated on *Add last update date*.

The following describes practices and/or steps for pre-disaster public communications, such as approaches, inputs (e.g., data, resources), outputs, roles, responsibilities, and timelines: *Add description of practices and/or steps*.

- The following communications methods are used for pre-disaster communication to the public:

  - ☐ Social media (such as Facebook, Twitter, NextDoor, etc.)
  - ☐ Community website
  - ☐ Town hall meetings
  - ☐ Handouts, newsletters, brochures, mailers, info kiosks available to residents
  - ☐ Coordination with local/regional builder groups
  - ☐ Public Service Announcements (PSAs) on TV and/or radio
  - ☐ Disaster hotline
  - ☐ Disaster field office
  - ☐ Disaster Recovery Information Packets

- Information is provided to using the following methods to ensure that the right audiences are receiving and understanding this material:

  - ☐ Using different languages
  - ☐ Targeting relevant populations
  - ☐ By phone
  - ☐ In print
  - ☐ Online

Assess Vulnerability to SD

There are pre-disaster steps to take to determine what parts of [Name of Community] may be at risk of experiencing SD. This begins with knowing where your regulated floodplain is, and what structures are within this area. Obtaining data about these at-risk properties can help identify vulnerable places ahead of a disaster.

Identify the Regulated Floodplain

To locate the regulated floodplain within [Name of Community], [Name of Community] uses *Add name of floodplain map or data.*, which is maintained by *Add responsible department/POC.* as of *Add last update date.* and can be found here: *Add resource location or link.*.

- [Name of Community] *has/does not have* the following higher standards that extend the regulated floodplain beyond the SFHA: *Add description.*.
- The following describes any additional details which may be useful in identifying the regulated floodplain: *Add additional details.*.

Property Database/List of Structures

Having a pre-defined list or database of structures in the regulated floodplain and the attributes of those structures, especially those that are pre-FIRM or otherwise non-conforming, is useful in knowing where to prioritize efforts after a disaster. It can also save time immediately following a disaster if it includes information needed to conduct an SD assessment. [Name of Community] *has/does not have* a property database or list of structures to help identify which structures are vulnerable to SD within the regulated floodplain. [Name of Community] uses a *Add either "pre-populated SDE Tool" or name of the community's property database or list* to track properties/structures, which is maintained by *Add responsible department/POC* as of *Add last update date.*. This is a *Add resource type (e.g., map, database, GIS layer, SDE Tool, etc.* that can be found here: *Add resource location or link*.

- The property database includes the following attributes, which may be useful in identifying potential SD or assisting with making determinations. ○

  - ☐ Building ownership and address ○
  - ☐ Building and foundation types ○
  - ☐ General description of buildings and flood factors ○
  - ☐ Property identification ○
  - ☐ Square footage ○
  - ☐ Building value
  - ☐ Market value
  - ☐ Properties with buildings that are (or are suspected to be) below the base flood elevation
  - ☐ Properties for which substantial damage estimates have previously been provided to the community after a federally declared disaster
  - ☐ Any buildings that could meet the cumulative substantial improvement definition

- The following describes additional details about the property database/list of structures and its elements: *Add additional details.*

Making sure the property database/list of structures is up to date is important in ensuring it accurately reflects current reality. The process for updating *Add name of resource* can be found here: *Add resource link or location.*. The following describes practices and/or steps for tracking SD properties and keeping [Name of Community]'s property database/list of structures up to date: *Add practices and/or steps.*.

Leverage Data Available through Information Sharing Access Agreements

An Information Sharing Access Agreement (ISAA) can be used to request data from FEMA that may be valuable in assessing vulnerability to SD and previously impacted areas. Before a disaster, requesting data about repetitive loss, severe repetitive loss, and previous claims may help identify structures vulnerable to SD. [Name of Community]

has/has requested/plans to request/does not plan to request an Information Sharing Access Agreement (ISAA) with FEMA in place to request data before or following a disaster event.

- This ISAA is maintained by *Add responsible department/POC* and was last updated on *Add last update date.*. It can be found here *Add resource link or location.* .
- It includes the following types of data *Add general data types, not specific items subject to privacy considerations.*.

Prior Substantial Damage Data and Other Data

[Name of Community] *has/does not have* records of prior substantial damage. These records are maintained by *Add responsible department/POC* and can be found here: *Add resource link or location.*. A description of previous substantial damage and substantial improvement determinations made by [Name of Community] can be found here: *Add description.*.

Other data sources that are used to assess structure vulnerability to SD prior to a disaster are: *Add other data sources.*.

Identify and Communicate Pre-Disaster Mitigation Alternatives

The following practices are conducted to identify and plan for mitigation alternatives. ○

- ☐ Mitigation alternatives are developed for all structures in the property database
- ☐ Outreach is conducted to SD property owners and local officials
- ☐ Potential funding sources for mitigation options are identified

Communication of pre-disaster mitigation alternatives to the public is led by *Add responsible department/POC*. Resources and plans to assist with this communication can be found here: *Add resource link or location* and were last updated *Add last update date.*. Additional details about how mitigation alternatives are communicated to the public are described here: *Add additional details.* Reference resources available to fund pre-disaster mitigation, which are described in the Help Structure Owners Access Other Recovery Funding section.

Establish an SI/SD Determination Process and Methodology

Having a consistent process and methodology for SI/SD determinations is crucial to ensuring that determinations are reliable, accurate, and defensible in case of an appeal. More information on determining market value and estimating cost of repair/improvement can be found in the FEMA SI/SD Desk Reference. While SI and SD determination methodologies may differ, costs of repair and improvement must be combined in the case of a structure with damage, where improvements are also being done.

Establish a Process and Method for Determining Market Value for Substantial Improvement

[Name of Community] *has/does not have* a process and methodology for determining the market value of substantially improved structures. The primary method used for determining market value of substantially improved structures is: *Add description of method.* The methodology can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC* and was last updated on *Add last update date.*.

Establish Process and Method for Estimating Cost of Improvement for Substantial Improvement

[Name of Community] *has/does not have* a process and methodology for estimating the cost of improvement of structures. The primary method used for estimating cost of improvement is: *Add description of method*. The process and methodology can be found here: *Add resource location or link* is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*.

Establish Process and Method for Determining Market Value for Substantial Damage

[Name of Community] *has/does not have* a process and methodology, separate from that outlined above for substantial improvement, for determining the market value of substantially damaged structures. The primary method used for determining market value of SD structures is: *has/does not have* The methodology can be found here: *Add resource location or link*, is maintained by *has/does not have* and was last updated on *Add last update date.*

Establish Process and Method for Estimating Cost of Damage for Substantial Damage

[Name of Community] *has/does not have* a process and methodology, separate from that outlined above for substantial improvement, for estimating the cost of damage of structures. The primary method used for estimating cost of repair/improvement is: *Add description of method*. The process and methodology can be found *here Add resource location or link*, is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*.

Create a Staffing Plan and Resource Agreements

Having available resources and staff are crucial when disaster strikes. Identifying which staff people are trained and available to conduct various SD tasks helps the community to be better prepared for action following a disaster. Staffing lists and contact information should be updated regularly to ensure the below information is accurate.

Central Point of Contact

The local official responsible for regulating/enforcing the floodplain management program in [Name of Community] is *Add name, title*. This person can be reached at *Add contact information.*.

Staff Roster

[Name of Community] *has/does not have* a roster of staff that are available to conduct SI/SD activities during day-to-day (blue skies) operations. The roster can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*. These additional resources can assist in identifying available staff: *Add additional resources.*

[Name of Community] *has/does not have* a roster of staff that are available to conduct SI/SD activities during disaster operations. The roster can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*. These additional resources can assist in identifying available staff: *Add additional resources.*

Methods and/or steps to plan staffing and staffing structure during a disaster, including how [Name of Community] changes organizational structure and/or staffing plans based on the scale of the event, are described here: *Add practices and/or steps.*.

Responsibility Table

The following table describes which officials and offices/departments are responsible for SI/SD activities.

Responsibility	Title(s) of Staff	Office or Department	Before/Immediately After/ After Event
Maintaining SD administrative procedures	*Add Title(s) of Staff*	*Add Office or Department*	BEFORE
Determining SD hotspots	*Add Title(s) of Staff*	*Add Office or Department*	IMMEDIATELY AFTER

Responsibility	Title(s) of Staff	Office or Department	Before/Immediately After/ After Event
Evaluating staffing needs and available resources	*Add Title(s) of Staff*	*Add Office or Department*	IMMEDIATELY AFTER
Gathering materials and issuing guidance	*Add Title(s) of Staff*	*Add Office or Department*	IMMEDIATELY AFTER
Proactively assessing and documenting damage	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Making SI/SD determinations and documenting results	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Communicating determinations to property owners and notifying them on next steps	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Managing determination appeals	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Receiving, reviewing, and issuing permits	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Accessing recovery resources	*Add Title(s) of Staff*	*Add Office or Department*	AFTER
Improving ahead of the next disaster	*Add Title(s) of Staff*	*Add Office or Department*	BEFORE AND AFTER

Provide Pre-Disaster Training

Providing pre-disaster training ensures staff know what to do after an event. [Name of Community] *offers/does not offer/has access to/does not have access to* pre-disaster SI/SD training. Applicable training can be delivered by the community, state, or FEMA, and include, but are not limited to Independent Study (IS)-284: Using the SDE Tool; IS-285: SDE for Floodplain Administrators; E/L/G273: Managing Floodplain Development Through NFIP; E/L/G 284: Advanced Floodplain Management Concepts SI/SD Module; and E/L/G 194: Advanced Floodplain Management Concepts; E/L/G 285: Providing Post-Disaster SD Technical Assistance to Communities. Information on classroom and field courses offered by FEMA can be found here: FEMA - Emergency Management Institute (EMI).

Trainings provided include:

- *Add name of training.*, offered by *Add name of community, state, or Region.*, trained *Add percent value of staff trained.* percent of staff.
- *Add name of training.*, offered by *Add name of community, state, or Region.*, trained *Add percent value of staff trained.* percent of staff.
- *Add name of training.*, offered by *Add name of community, state, or Region.*, trained *Add percent value of staff trained.* percent of staff.

[Name of Community] *has/does not have* a plan for pre-disaster SI/SD training. The plan can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*. The following provides additional detail about pre-disaster SI/SD training: *Add additional detail.*

- The plan *includes/does not include* annual substantial damage training for substantial damage management team members.

Establish Mutual Aid Relationships/Agreements

[Name of Community] has existing mutual aid relationships and/or contracts or agreements with the following types of external sources that can provide SI/SD assistance immediately following a disaster:

- ☐ Neighboring community
- ☐ County
- ☐ State
- ☐ State Association of Floodplain Managers
- ☐ Building professional organizations
- ☐ Third party contractors
- ☐ Community Emergency Response Teams (CERTs)
- ☐ Voluntary Organizations Active in Disaster (VOAD) inspection staff

The following describes existing relationships and/or contracts or agreements with external sources that can be used to provide SI/SD assistance immediately following a disaster:

- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*
- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*
- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*

Additional post-disaster (other than for SI/SD support) existing relationships and/or contracts or agreements with external sources that should be considered when planning for SD operations are described here:

- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*
- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*
- *Add name of support, Add contact information, Add type of support, Add resource location or link to contract or agreement, Add POC contact information*

POST-DISASTER: IMMEDIATE COORDINATION

The community has just experienced a disaster. While we may be helping the community in other ways, getting organized immediately following a disaster can ensure post-disaster permitting processes are executed most efficiently. Following is all of the information and procedures [Name of Community] has in place for floodplain management that are relevant immediately following a disaster.

2 Determine SD Hotspots

Assessing vulnerability to substantial damage pre-disaster will equip [Name of Community] with the information, such as the property database and maps, needed to make monitoring the impact area straightforward because we will already know where to look. Monitoring the impact of the disaster, through emergency managers, on-the-ground updates, and other data sources can help prioritize where to focus efforts, staff, and resources and begin outreach and communication.

Monitor Impact and Prioritize Efforts

[Name of Community] *has/does not have* a process for monitoring impact areas and determining where to prioritize efforts immediately following a disaster. The methods for monitoring impact areas and determining where to prioritize efforts immediately following a disaster are: *Add description of methods*. The process can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*

Communicate with the Public Post-Disaster

[Name of Community] *has/does not have* a strategy and associated products (a communications plan, social media strategy, press releases, website update schedule, etc.) for immediate post-disaster public communications. Having these documents prepared prior to an event will avoid confusion and stress immediately following an event and in the days following. The strategy and associated products can be found here: *Add link(s) or describe the location(s)*. It is maintained by *Add responsible department/POC.* and was last updated on *Add last update date*.

The following describes practices for post-disaster public communications, such as approaches, steps, inputs (data, resources), outputs, roles, responsibilities, and timelines: *Add description of practices*.

- The following communications methods are used for immediate post-disaster communication to the public:

  - ☐ Town hall meetings
  - ☐ Community website
  - ☐ Social media (such as Facebook, Twitter, NextDoor, etc.)
  - ☐ Public Service Announcements (PSAs) on TV and/or radio
  - ☐ Coordination with local/regional builder groups
  - ☐ Handouts, newsletters, brochures, mailers, info kiosks available to residents
  - ☐ Disaster hotline
  - ☐ Disaster field office
  - ☐ Disaster Recovery Information Packets

- Information is provided to using the following methods to ensure that the right audiences are receiving and understanding this material:

  - ☐ Using different languages
  - ☐ Targeting relevant populations
  - ☐ By phone
  - ☐ In print
  - ☐ Online

3 Evaluate Staffing Needs and Available Resources

Having sufficient staff ready and trained to respond immediately following a disaster is key to ensuring floodplain management requirements are met. Review the staffing plan developed in blue skies and remember that staff are likely also experiencing this disaster. Reach out to identified contacts to leverage existing relationships, agreements, and support from local, regional, and federal partners or to request training for staff.

Reference the Staffing Plan/Structure

[Name of Community] *has/does not have* a staffing plan/structure for organizing staff immediately following a disaster, which can be found here: *Add link or resource location to staffing plan/structure.*. It is maintained by *Add responsible Department/POC.* and was last updated on *Add last update date.*. The following provides additional details about the staffing plan/structure: *Add additional details.*.

The method for calculating the number of staff/resources needed to collect SI/SD data (based on the number of structures to inspect within our target timeline) is described here: *Add link or resource location to staffing plan/structure.*.

Review Other Disaster Roles

The following table describes the titles of staff that conduct SI/SD determinations, who are also involved in other disaster response and recovery operations.

Responsibility	Title(s) of Staff
Staffing the Emergency Operations Center	*Add Department/Title(s) of Staff*
Staffing/monitoring disaster field office	*Add Department/Title(s) of Staff*
Processing and hanging written notices for safety inspections	*Add Department/Title(s) of Staff*
Conducting Preliminary Damage Assessments (PDAs)	*Add Department/Title(s) of Staff*
Other (please specify)	*Add Department/Title(s) of Staff*

Identify Training Needs

Just-In-Time Training (JITT) is training that can be accessed immediately following a disaster when it is most needed. [Name of Community] anticipates needing the following types of JITT related to SI/SD: *Add description of anticipated training needs.*

Get Just-In-Time Training

Points of contact for accessing state and federal SI/SD JITT can be found below:

Source of Support	Name(s) of Contact	Contact Information	Training(s) Offered
FEMA Floodplain Management	*Add Name(s) of Contact*	*Add Contact Information*	*Add Training(s) Offered*
State NFIP Office	*Add Name(s) of Contact*	*Add Contact Information*	*Add Training(s) Offered*
Other (please specify)	*Add Contact Information*	*Add Contact Information*	*Add Training(s) Offered*

Access Mutual Aid Existing Relationships/Agreements

Existing mutual aid relationships and/or contracts or agreements with external sources that can be leveraged immediately following a disaster for SI/SD support, as well as other post-disaster support that should be considered for SD operations planning, are described here: Establish Relationships/Agreements.

A plan(s) or procedure(s) for accessing these relationships and/or contracts or agreements with external sources immediately following a disaster can be found here: *Add link or resource location to plans and procedures.*. The community point of contact responsible for accessing existing relationships/agreements is: *Add responsible Department/POC.*. The following describes additional practices and/or steps for accessing existing relationships/agreements: *Add practices and/or steps.*.

Access Public Assistance Resources

When a Presidential Disaster Declaration is declared, Public Assistance (PA) becomes available. Contacting the local or state PA point of contact is an important step in accessing Disaster Recovery Reform Act (DRRA) Section 1206 reimbursement for applicable SI/SD activities. *Note: the FEMA PA point of contact may vary disaster-to-disaster.*

Points of contact for accessing PA resources can be found below.

Point of Contact	Name and/or Titles of Contact	Contact Information
Community POC or person responsible for coordinating PA sub-applications	*Add name and/or title of contact*	*Add contact information*
State POC or person responsible for coordinating PA Applications	*Add name and/or title of contact*	*Add contact information*
Other, (please specify)	*Add name and/or title of contact*	*Add contact information*

Access State and Federal Support

State and federal agency officials that are involved in [Name of Community]'s damage assessment process or providing technical assistance immediately following an event are described below, including contact information, name of official, title, office, and description of involvement and role. Reach out for assistance.

Name of Official	Title and/or Office	Contact Information	Involvement/Role
Add name of official	*Add title and/or office*	*Add contact information*	*Add involvement/role*
Add name of official	*Add title and/or office*	*Add contact information*	*Add involvement/role*
Add name of official	*Add title and/or office*	*Add contact information*	*Add involvement/role*

Plan to Access State/Federal Reimbursement

[Name of Community] *has/does not have* a plan for accessing state and federal funding resources or reimbursement for conducting SD determination activities, which can be found here: *Add resource location or link to plan*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*.

[Name of Community] plans to pursue the following reimbursement sources:

- ☐ Public Assistance (PA) for Floodplain Administration and Enforcement or Building Code Administration and enforcement.
- ☐ Other (e.g., state-specific funding)

Additional details about plans to access state and federal funding resources or reimbursement for conducting SI/SD determination activities are described here: *Add description.*

Record Costs and Track SD Activities

Recording costs and tracking SD activities may be necessary to obtain resources or reimbursement for disaster response, such as through FEMA Public Assistance reimbursement for activities made eligible by DRRA Section 1206 or other grants and funding sources.

[Name of Community] *has/does not have* a process for recording costs associated with SI/SD activities, which can be found here: *Add resource location or link to process*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details on how costs are recorded and tracked can be found here *Add additional details*.

4 Gather Materials and Issue Guidance

Once staff are identified to assist with conducting SD activities, it is important to ensure they have the appropriate materials, tools, and guidance to collect data and make determinations. Equipping teams with the tools and guidance to conduct inspections and assessments safely and the same way every time is key to bringing credibility and consistency to determinations. Some items are listed in the below table, and a full list of field preparation items and procedures can be found in the SDE Tool Manual and Field Workbook.

Item Type	Items	Item Locations or Links
Safety equipment	☐ *Boots* ☐ *Hard hats* ☐ *Hi-vis vests* *Other (Please Specify)*	*Add item locations*
Technology	☐ *Cameras* ☐ *Tablets* *Other (Please Specify)*	*Add item locations*
Guidance	☐ *Determining market value* ☐ *Conducting inspections and assessments* ☐ *Safety information* *Other (Please Specify)*	*Add item locations or links*

Preparing to Conduct Assessments

[Name of Community] *has/does not have* a process for collecting substantial damage data, including the tools and equipment that should be used. The process can be found here: *Add resource link or location*, it is maintained by *Add responsible department/POC.* and was last updated on *Add last update date*. Details about collecting substantial damage data, including the tools and equipment that should be used, can be found here: *Add details.*.

POST-DISASTER: ASSESSMENTS & DETERMINATIONS

Following a disaster, structure owners will be eager to rebuild. Most structure owners start rebuilding 7-10 days after the water recedes following a flood event. Taking action quickly and efficiently helps ensure that SI/SD determinations are made in a timely and organized manner so compliant rebuilding can begin. Remember, SI/SD requirements apply to all hazards, such as wind, fire, earthquakes, not just flooding. Below is all information and procedures [Name of Community] has in place relevant to post-disaster recovery and reintegration.

5 Proactively Assess and Document Damage

Taking proactive steps to assess the areas of [Name of Community] most impacted can help inform where SD is likely, especially by referencing pre-identified vulnerable structures first (see Determine SD Hotspots). Going out into the community—when safe—to assess damage and collect initial SD data through assessments is important to making sound and defensible SD determinations. For more information on conducting inspections and assessments reference the FEMA SI/SD Desk Reference and SDE Tool Manual and Field Workbook. Remember, there are a variety of distinct post-disaster inspections other than SD, and other teams should be coordinated as needed.

Determine the Impact Area

A process for determining the impact area post-disaster can be found here: *Add resource link or location*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about determining the impact area post-disaster can be found here: *Add details*.

Use the Following Data Resources to Determine the Impact Area

The following are used to determine the potential impact area after a disaster.

- High water marks: *Add resource location or link*, *Add resource type*, *Add responsible department/POC*, *Add effective date*.
- Preliminary Damage Assessment Data: *Add resource location or link*, *Add resource type*, *Add responsible department/POC*, *Add effective date*.
- Impact maps (showing rainfall or other flood-related data, or other hazards data): *Add resource location or link*, *Add resource type*, *Add responsible department/POC*, *Add effective date*.
- Flood insurance claims information: *Add resource location or link*, *Add resource type*, *Add responsible department/POC*, *Add effective date*.
- *Add other item*: *Add resource location or link*, *Add resource type*, *Add responsible department/POC*, *Add effective date*.

Provide Information and Assessment Guidance to SI/SD Staff

Once the impact area is determined, information should be provided to SI/SD staff to guide and inform assessments. A process for providing information and assessment guidance can be found here: *Add resource link or location*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about providing information and guidance can be found here: *Add details*.

- The following items are provided to SI/SD staff before they go into the field to conduct assessments:

  - ☐ Numbers and locations of structures to be inspected
  - ☐ Delineation of inspection boundaries on a FIRM/map
  - ☐ Sequence of inspections
  - ☐ Inspection team assignments by area
  - ☐ Guidance materials for inspectors
  - ☐ Guidance materials for resident interaction
  - ☐ Instructions for obtaining photos and GPS coordinates

Conduct Assessments

[Name of Community] *has/does not have* a process for conducting assessments. The process can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about conducting assessments can be found here: *Add details*.

For technical guidance and additional details about how to conduct building assessments, reference the Substantial Improvement/Substantial Damage Desk Reference and the Substantial Damage Estimator (SDE) User Manual and Field Workbook.

6 Make SI/SD Determinations and Document Results

After staff have conducted assessments and collected data, it's time to make SI/SD determinations. Use the methods below for finding the market value and estimating the cost of repair and improvement to decide if a structure is substantially damaged. As a reminder, SI/SD properties are damaged or are being improved by 50% or more of the value of the structure, unless higher standards are adopted. It is important to document and store this data, for reference in case of appeals or future disasters. In a large disaster, a FEMA POC at the Joint Field Office (JFO) may coordinate with [Name of Community] to request updates on structure-specific and other SD data to assist with providing technical assistance, so good documentation practices are useful. The following definitions of market value and cost estimates are the same as listed in Establish an SI/SD Determination Process and Methodology.

Determine Market Value for Substantial Damage

[Name of Community] *has/does not have* a process and methodology for determining the market value of substantially damaged structures. The primary method used for determining market value of SD structures is: *Add description of method.*. The methodology can be found here: *Add resource location or link.*, is maintained by *Add responsible department/POC* and was last updated on *Add last update date.*

Estimate Cost of Repair for Substantial Damage

[Name of Community] *has/does not have* a process and methodology for estimating the cost of repair of structures. The primary method used for estimating cost of repair/improvement is: *Add description of method*. The process and methodology can be found here: *Add resource location or link* is maintained by *Add responsible department/POC.* and was last updated on *Add last update date.*.

Document and Store SI/SD Determination Data

A process for documenting and storing SI/SD determination data can be found here: *Add resource location or link*. The database/data storage location can be found here: *Add database/data storage location or link.*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date.*. Additional details about documenting and storing SI/SD determination data can be found here: *Add details.*

7 Communicate Determinations to Property Owners and Notify them of Next Steps

Now comes the tough part: telling structure owners the results of determinations. It is important to do so kindly, but with authority. Communicating SI/SD requirements with the public before and after a disaster can help alleviate confusion and frustration when delivering determinations. It may be necessary to communicate with local officials and the community attorney to assist with defending determinations. Remember: determinations are a necessary step to issuing permits for compliant rebuilding and are a requirement for administering a compliant floodplain management program in [Name of Community].

Notify Structure Owners of SI/SD Determinations

[Name of Community] *has/does not have* a procedure for communicating the results of the SI/SD determinations to structure owners. The procedure can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*.

Letter templates and documents used to notify residents of determinations can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*.

Additional details about communicating the results of the SI/SD determinations to structure owners can be found here: *Add detail.*

The following methods are utilized:

- ☐ Letter or email to structure owners/residents
- ☐ Paper handed directly to the structure owner/resident
- ☐ Post the determination at a physical or virtual community site
- ☐ *Other (Please specify)*

Continue to Communicate with the Public on SI/SD Determination Information and Next Steps

[Name of Community] *has/does not have* a procedure for communicating additional information about SI/SD determinations to structure owners. The procedure can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*.

Materials used to communicate additional information about SI/SD determinations can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*.

Additional details about communicating additional information about SI/SD determinations are: *Add detail.*

The following methods are utilized:

- ☐ Instructional videos or guidance
- ☐ Town hall meetings or other discussion forums
- ☐ Disaster Hotline
- ☐ Community website, social media (i.e., Facebook, Twitter, NextDoor, etc.), or other publications
- ☐ *Other (Please specify)*

POST-DISASTER: REINTEGRATION

Following a disaster, structure owners will be eager to rebuild. At this point, we have conducted assessments and delivered determinations. Residents can apply for permits to begin rebuilding. All information and procedures our community has in place relevant to post-disaster recovery and reintegration are included below. Remember: to help our residents, our community can choose to waive permit *fees*—but not permits.

8 Manage Determination Appeals

There will be structure owners who do not agree with the determination they have received. Having an appeals process in place provides guidance for quickly and efficiently handling these cases. Determining what methods and alternate data sources are acceptable can also provide guidance to structure owners, as well as staff who may not typically process permits.

Receive, Review, and Make Decisions on Appeals

[Name of Community] *has/does not have* a process and other supporting materials for receiving, reviewing, and making decisions on appeals. The process and materials can be found here: *Add resource location or link*, it is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional detail about practices for receiving, reviewing, and making decisions on appeals can be found here: *Add detail*.

Use Acceptable Appeals Sources/Methods

The following describes the acceptable sources and methods used for appealing estimated market value and estimated cost of repair/improvement, as well as other considerations.

Appeal Market Value Sources/Methods	Appeal Estimated Cost Sources/Methods	Other Inputs/ Factors
Add appeal market value sources/methods	*Add appeal estimated cost sources/methods*	*Add other inputs/factors*

9 Receive, Review, and Issue Permits

Issuing permits is a regular part of floodplain management but is especially important following a disaster. Repairing and rebuilding substantially damaged structures in compliance with local regulations is critical to maintaining good standing in the NFIP and protecting structure owners from future disasters. Below is [Name of Community]'s permitting procedures during blue skies, applicable to substantial improvement projects, and post-disaster/ emergency permitting procedures. For more information on permitting, reference the FEMA SI/SD Desk Reference.

Leverage the Day-to-Day Permitting Process

A process for day-to-day (blue skies) permitting, including substantial improvement or individual/small scale substantial damage cases, can be found here: *Add resource location or link*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about practices for day-to-day (blue skies) permitting can be found here: *Add detail*.

This process *includes/does not include* ordinance and permit enforcement procedure. Additional details on ordinance and permit enforcement procedures can be found here: *Add detail*.

Leverage the Post-Disaster/ Emergency Permitting Process

A process for post-disaster/emergency permitting can be found here: *Add resource location or link*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about practices for post-disaster/emergency permitting can be found here: *Add details*.

This process *includes/does not include* ordinance and permit enforcement procedures. Additional details on ordinance and permit enforcement procedures can be found here: *Add detail*.

10 Access Recovery Resources

There are a variety of resources available to [Name of Community] and its residents. Having plans in place to access the resources below can ensure deadlines and expectations are met, and resources are maximized. Keep in mind that some federal funding sources require a major disaster declaration in the state before being made available, but there may be local and state funding sources relevant to [Name of Community].

Finalize Recording Costs and Tracking SD Activities to Access Reimbursement Funds

[Name of Community] *has/does not have* a process for recording costs associated with SI/SD activities. The process for recording costs can be found here: *Add resource location or link*, is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about recording costs associated with floodplain management administration and enforcement activities can be found here: *Add detail*. *Note: Accessing reimbursement through FEMA DRRA 1206 requires a Presidential Disaster Declaration.*

Help Insured Structure Owners Access Increased Cost of Compliance Funding

[Name of Community] *has/does not have* a plan(s) to help structure owners access Increased Cost of Compliance (ICC) funding for repairs. The plan(s) can be found here: *Add resource location or link*, is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about helping structure owners access ICC funding for repairs can be found here: *Add details.*

Help Structure Owners Access Other Recovery Funding

[Name of Community] *has/does not have* plans to apply for FEMA Hazard Mitigation Assistance or other funding for resilient repairs of SD structures. The plans can be found here: *Add resource location or link*, are maintained by *Add responsible department/POC* and were last updated on *Add last update date*. Additional details about funding resilient repairs through mitigation programs can be found here: *Add details. Note: Accessing FEMA Hazard Mitigation Grant Funding requires a Presidential Disaster Declaration.*

11 Improve Ahead of the Next Disaster

Finally, as [Name of Community] returns to blue sky operations, it is important to reflect on what went well and what could be improved. Tracking best practices and evaluating things like response times, staff needs, and more can highlight opportunities to respond faster and stronger next time.

Track Best Practices

A process for best practice tracking can be found here: *Add resource location or link*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional details about best practice tracking can be found here: *Add detail*.

Evaluate and Continually Improve

A process for (i.e., implementation plan) for evaluating and continuously improving these substantial damage administrative procedures can be found here: *Add resource location or link*. It is maintained by *Add responsible department/POC* and was last updated on *Add last update date*. Additional detail about evaluating and continuously improving these substantial damage administrative procedures can be found here: *Add resource location or link*.

This implementation plan includes the following elements:

- ☐ Plan to develop an annual evaluation report with a description of who will prepare an annual evaluation report and when.
- ☐ Steps for sharing the implementation plan, annual evaluation report, and SD management plan with elected officials.
- ☐ Update process and/or schedule for the SD management plan
- ☐ Steps that must be taken to adhere to the Privacy Act or any state or community privacy requirements.

ADDITIONAL INFORMATION

More about Substantial Damage and Substantial Improvement:

- Information on the NFIP can be found online: http://www.fema.gov/flood-insurance
- FEMA 758: Substantial Improvement/Substantial Damage Desk Reference is the principal source of guidance for how to define and regulate SI/SD and provides detailed information about inspections and determinations.
- Information about adopting higher standards into local floodplain ordinances, along with relevant tools and resources, can be found here: https://www.fema.gov/floodplain-management/manage-risk/local.

More about the SDE Tool:

- FEMA 784: Substantial Damage Estimator (SDE) User Manual and Field Workbook provides a standardized approach to data collection management and the determination of substantially damaged structures for local officials. This tool also includes template determination letters communities can utilize.
- An overview of the SDE Tool, the SDE Tool download link and installation instructions, SDE Tool job aid, and frequently asked questions can be found online: https://www.fema.gov/emergency-managers/risk-management/building-science/substantial-damage-estimator-tool.
- Training opportunities about the SDE Tool include Independent Study (IS)-284: Using the SDE Tool and IS-285: SDE for Floodplain Administrators.
- Instructions on pre-populating the SDE Tool can be found online: https://crsresources.org/files/500/importing_data_into_sde.pdf.
- The SDE Tool important template can be found online: https://crsresources.org/files/500/sde_fields_template.xlsx.

More about CRS:

- An overview of the CRS Program, application forms, a list of CRS Communities, case studies and fact sheets, and discount information can be found online: https://www.fema.gov/floodplain-management/community-rating-system.
- The CRS Manual and CRS Manual Addendum provide additional guidance and information about the CRS program, requirements, and specific credits. These should be referenced if applying for CRS credits.
- Developing a Substantial Damage Management Plan for Credit Under the Community Rating System of the National Flood Insurance Program provides information on the requirements to receive CRS Substantial Damage Management Plan credit, specifically.

Other Useful Links:

- The FEMA Map Service Center provides Flood Insurance Rate Maps for communities nationwide. Instructions for printing a FIRMette and downloading a FIRM Panel can be found here: https://www.fema.gov/sites/default/files/documents/fema_how-find-your-firm-make-firmette.pdf
- Current training opportunities, both in-person and virtual, can be accessed through FEMA's Emergency Management Institute. Relevant trainings include: L273: Managing Floodplain Development Through NFIP; L/G 284: Advanced Floodplain Management Concepts SI/SD Module; and EO-194: Advanced Floodplain Management Concepts; EO-285: Providing Post-Disaster SD Technical Assistance to Communities.
- Information about Section 1206: Building Code and Floodplain Management Administration and Enforcement (FP 204-079-01) of the Disaster Reform Recovery Act (DRRA) and frequently asked questions can be found online: https://www.fema.gov/assistance/public/policy-guidance-fact-sheets/section-1206-building-code-and-floodplain-management-administration-and. A video overview of the DRRA 1206 reimbursement program can be found here: https://www.youtube.com/watch?v=rMHz85943gg.
- Information about FEMA Hazard Mitigation Assistance Grants, including the Hazard Mitigation Grant Program (HMGP), Building Resilient Infrastructure and Communities (BRIC), Flood Mitigation Assistance (FMA), and HMGP Post-Fire Assistance can be found here: https://www.fema.gov/grants/mitigation.

Subject: Fort Myers Beach - Floodplain management post-disaster visit - follow-up letter
Attachments: FtMyersBeach_PDCCR_Follow-upLetter.pdf

Good afternoon,

Please find a copy of the letter that is being mailed to the Chief Executive Official of your community. He is copied on this email.

If you have any questions after reading the letter, please reach out to Jaime Mascellino. He had been copied on this email and his contact information is also provided in the final paragraph of the letter.

Regards,
Tammy Hansen, CFM

Fort Myers Beach, FL 33931

Reference: Floodplain Management Post-Disaster Visit

Dear Andrew Hyatt:

This is to provide you with our findings from the review visit that the Federal Emergency Management Agency (FEMA) conducted on March 3, 2023. Thank you for the courtesy extended to Mr. Charlie Baker, Ms. Margaret Funkhouser and Ms. Cristina Muresan Trott of the FEMA DR-4673 staff. We are very appreciative of the time the Town spent with them.

The Town of Fort Myers Beach participates in the National Flood Insurance Program (NFIP) and is currently a Class 5 in the Community Rating System (CRS). This rating is a reflection of the Town's dedication to higher standards and provides many NFIP policy holders in the Town 25 percent premium discounts.

The purpose of this visit was to understand the effectiveness of the Town of Fort Myers Beach's post-disaster floodplain management activities, including its substantial damage process and to gauge its progress.

During the visit, the Town of Fort Myers Beach's substantial damage and floodplain development permit processes were reviewed and discussed. Town staff indicated that inspections and substantial damage determinations were not being conducted proactively, rather only when requested by the building owner at the time a permit is requested. It was also noted that the Town planned to send out substantial damage letters, following an analysis of the Army Corps of Engineers ATC-45 inspections report.

When communities wait for homeowners to apply for permits, they risk losing the opportunity to bring structures into compliance as not all owners apply for the proper permits. For those that do obtain the proper permits, not having substantial damage determinations done in advance can slow down their recovery as they have begun planning their repairs without knowing they may have to address substantial damage requirements, including elevation of the first finished floor to or above the regulatory flood elevation.

To demonstrate adequate community floodplain management program implementation and enforcement, FEMA is requesting the Town of Fort Myers Beach provide the following items, on or before July 7, 2023:

1. A list of the community-identified substantial damage or potential substantial damaged structures;
2. List of the demolition permits (to include the address) issued since 10/1/2022;
3. Copies of permits issued since 10/1/2022 for repairs in the Special Flood Hazard Area (SFHA);
4. Elevation Certificates for any completed work in the SFHA, since 10/1/2022; and
5. Explanation of substantial damage operations conducted to date or plans for future compliance operations.

FEMA's analysis of Individual Assistance and NFIP claims data indicates as many as 1,009 residential structures in the Town of Fort Myers Beach may have been substantially damaged. We believe this data could support your community's substantial damage operations. If the Town is interested in requesting this data through an Information Sharing Access Agreement (ISAA), please email FEMA-DR-4673-data-sharing-requests@fema.dhs.gov to begin the process. While this information may be useful, it does not capture all community damages and is not meant to be a substitute for a community's own inspection of its SFHA and substantial damage determinations.

The Disaster Recovery Reform Act (DRRA) of 2018, Section 1206 authorizes FEMA to provide communities approved for Public Assistance funding following a presidentially declared disaster with the resources needed to effectively administer and enforce building codes and floodplain management regulations (e.g., substantial damage assessments or determinations, permitting, etc.), increasing the speed of recovery and enhancing NFIP compliance. Local communities may receive assistance for these activities completed up to 180 days after the disaster declaration. For Hurricane Ian, this date is March 29, 2023.

We appreciate the Town of Fort Myers Beach's commitment to administering the NFIP. Implementing a local floodplain management program--including enforcement of floodplain management regulations--is a minimum expectation of participation in the NFIP and is also a requirement for participation in the CRS. We ask that the Town submit all the requested documentation to FEMA-R4-FMI@fema.dhs.gov, on or before July 7, 2023, to demonstrate that your community's floodplain management program meets minimum NFIP requirements and that your community may continue to be eligible for CRS participation. If your staff members have questions or require additional information, Mr. James Mascellino may be reached by telephone at (407) 716-9528 or by e-mail at james.mascellino@fema.dhs.gov.

Sincerely,

Jason O. Hunter

Jason O. Hunter, CFM, Chief
Floodplain Management & Insurance Branch
Mitigation Division

Subject: Fort Myers Beach - Floodplain management post-disaster visit - follow-up letter
Attachments: FEMA Demo Permits from 10.1.22--6.1.2023.xlsx; FEMA- Issued Reports from 1.1.2022 through 6.1.2023.xlsx; SD Initial Determinations MASTER FILE DO NOT DELETE.xlsx

1. A list of the community-identified substantial damage or potential substantial damaged structures;
-Attached
2. List of the demolition permits (to include the address) issued since 10/1/2022;
-Attached
3. Copies of permits issued since 10/1/2022 for repairs in the Special Flood Hazard Area (SFHA);
-Attached
-More detailed information about each permit can be found through our permitting portal
https://portal.iworq.net/FORTMYERSBEACH/permits/600
4. Elevation Certificates for any completed work in the SFHA, since 10/1/2022; and
-Elevation certificates to check for flood compliance can be found on our website
https://www.fortmyersbeachfl.gov/746/Elevation-Certificates
5. Explanation of substantial damage operations conducted to date or plans for future compliance operations.
We sent out 1134 substantial damage letters. We used Army Corp of Engineers data to assist with our determinations. If a property owner challenges our determination, we are giving them the option to apply for a permit showing all repairs to restore the home to pre-disaster condition stay under 50% of the value of the structure. We have our code officers patrolling daily to catch unpermitted work. Within the last 2 months 600 cases have been opened.

Subject: RE: Fort Myers Beach - Floodplain management post-disaster visit - follow-up letter

Good morning, Kristin,
Hope this email finds you all well.
We haven't spoken in a few months, so I am reaching out to inquire how your community's recovering from Hurricane Ian.
Thank you for your current SD/SI data for Fort Myers Beach.
I'd like to schedule an in person visit also within the next two weeks and open for discussion on the date and time.
Also please be advised FEMA will host (SDAP) Substantial Damage Administrative Plan training for the month of Oct. 2023. Tentative week of Oct. 9th, 2023, and would like to invite you and your staff. Will advise of definite date(s).
Thank you, Jackie,

1. A list of the community-identified substantial damage or potential substantial damaged structures;
   -Attached
2. List of the demolition permits (to include the address) issued since 10/1/2022;
-Attached
3. Copies of permits issued since 10/1/2022 for repairs in the Special Flood Hazard Area (SFHA);
-Attached
-More detailed information about each permit can be found through our permitting portal
https://portal.iworq.net/FORTMYERSBEACH/permits/600
4. Elevation Certificates for any completed work in the SFHA, since 10/1/2022; and
-Elevation certificates to check for flood compliance can be found on our website
https://www.fortmyersbeachfl.gov/746/Elevation-Certificates
5. Explanation of substantial damage operations conducted to date or plans for future compliance operations.

We sent out 1134 substantial damage letters. We used Army Corp of Engineers data to assist with our determinations. If a property owner challenges our determination, we are giving them the option to apply for a permit showing all repairs to restore the home to pre-disaster condition stay under 50% of the value of the structure. We have our code officers patrolling daily to catch unpermitted work. Within the last 2 months 600 cases have been opened.

Good morning,
The training Substantial Damage Administrative Plan (SDAP) scheduled for end of Sept/ Oct/Nov. 2023 will need to be reschedule in Jan. 2024.
Apologize for the inconvenience.
Best to you
Jackie

Good afternoon, Kristin,
I know you are exceptionally busily meeting the demands of your community recovery.
Can we pleas set u p a time to meet. I'm available any date and time please pencil me in on your schedule.
I tried several times to call you discuss the SD progress in the community. Pleas let me know if I can assist in any fashion.
Look forward to our meeting.
Thank you.
Jackie

Hi Jacqueline,
It is a constant battle and we are working hard to make sure everyone is doing the right thing. It's kind of like herding squirrels, they don't want to listen.
I am actually going on vacation until the 16th. I am available for a meeting anytime that works for you after I get back (just not July 28).

National Flood Insurance Program

Privacy Act Notice

RE: Town of Fort Myers Beach, FL, National Flood Insurance Program Data from the Federal Emergency Management Agency (FEMA)

The Town of Fort Myers Beach, FL is receiving data from the Federal Emergency Management Agency's that is maintained in support of the National Flood Insurance Program (NFIP). Specifically, the Town of Fort Myers Beach, FL is receiving property addresses identified by FEMA as possible violations to the local floodplain management laws and regulations. The community shall use the data to verify, monitor, and resolve the possible violation. As an NFIP participating community, this information will assist the community to ensure compliance with the NFIP and maintain the availability of flood insurance. FEMA will send the information to you securely via email on a password-protected spreadsheet or pdf.

FEMA discloses this to you pursuant to the "routine use" provision of the Privacy Act of 1974, 5 U.S.C. § 552a(b)(3), specifically under Routine Uses G, I, M, N, O, R and T of the System of Records Notice (SORN), DHS/FEMA-003 - National Flood Insurance Program Files 79 FR 28747 (May 19, 2014). The SORN may be electronically viewed at *https://www.gpo.gov/fdsys/pkg/FR-2014-05-19/html/2014-11386.htm*.

The Town of Fort Myers Beach, FL does not have permission to release the provided information to third parties, including third party contractors and will only use the data for the stated purpose. Unauthorized disclosure of FEMA data will result in an immediate denial of access to the FEMA data. Pursuant to the Privacy Act, 5 U.S.C. § 552a(e)(10), please destroy or return said personally identifiable information (PII) to FEMA once you no longer have use for it. PII is information that can be used to identify, by itself, or in combination, individuals by direct or indirect means.

In the event of a privacy incident resulting from this sharing of FEMA PII, Town of Fort Myers Beach, FL shall immediately, but in no event later than twenty-four (24) hours from suspicion, discovery or notification of the suspected or confirmed privacy incident, notify the FEMA Privacy Officer at (202) 212-5100 or FEMA-Privacy@fema.dhs.gov. FEMA will investigate the incident pursuant to DHS standard procedures and will consult the Town of Fort Myers Beach, FL to diagnose, mitigate and manage the privacy incident. The Town of Fort Myers Beach, FL will be responsible for carrying out all necessary measures to remedy the effects of the privacy incident.

By accepting the FEMA data, the Town of Fort Myers Beach, FL agrees that it shall bear all costs, losses and damages to the extent resulting from the City's breach of FEMA data. The Town of Fort Myers Beach, FL further agrees to release, defend, indemnify, and hold FEMA harmless for claims, losses, penalties and damages, and reasonable attorneys' fees and costs to the extent arising out of the , Town of Fort Myers Beach, FL or its contractor's, negligence, unauthorized use or disclosure of FEMA PII and/or the Town of Fort Myers Beach, FL, or its contractor's, breach of its obligations under this sharing.

By accepting, receiving, downloading, or otherwise obtaining the routine use information or data discussed in this document, Town of Fort Myers Beach, FL understands, agrees, and accepts the terms of the use of the data as outlined in this document.

FEMA

December 6, 2023

Andy Hyatt
Town Manager, Town of Ft. Myers Beach
2525 Estero Blvd
Ft. Myers Beach, FL 33931

Reference: National Flood Insurance Program (NFIP) – Floodplain Management Post-Disaster

Dear Mr. Hyatt:

As part of FEMA's ongoing compliance responsibilities following Hurricane Ian, our staff toured your community's Special Flood Hazard Areas during the weeks of October 30th and November 4th. The two-person teams identified recent and on-going rebuilding activity for which we do not have permit documentation.

Attached is the list of **105 sites** that were identified. We are requesting the city provide all the permit documentation as listed below to FEMA-R4-FMI@fema.dhs.gov, on or before **January 12, 2024**.

This will demonstrate your community's floodplain management program meets minimum NFIP requirements to ensure your community continues to be eligible for Community Rating System (CRS) participation.

Please see the documentation requested below.

Community Determination	Documentation Needed
Structure compliant, based upon review of Elevation Certificate	Were repair permits issued? • If yes, provide the structural repair/improvement permit #s and issuance dates, or • If no, proof of the enforcement action.
Community Determined, Structure IS Substantially Damaged/Improved	• Substantial Damage/Improvement notification letter • Substantial Damage/Improvement assessment calculation documentation • Calculated damage/improvement percentage • Structural repair/improvement permit #s • Permit issuance dates

Community Determination	Documentation Needed
Community Determined, Structure is NOT Substantially Damaged/Improved	• Substantial Damage/Improvement assessment calculation documentation, • Calculated damage/improvement percentage • Structural repair/improvement permit #s • Permit issuance dates
Unpermitted repairs/improvements	• Proof of the enforcement action • and documentation based upon the community determination (see above)

Failure to provide this information will lead to enforcement action.

> *Section 211 of the CRS Coordinator's Manual states that the basic requirement for CRS participation is that "The community must be in full compliance with the minimum requirements of the NFIP." ... "If a community is determined at any time to be in less-than-full compliance, it will retrograde to a CRS Class 10."*

For CRS communities, the first enforcement action is a CRS retrograde to class 10 followed by probation.

My team has discussed this information request with your community's floodplain administrator. If your staff members have questions or require additional information, please call Mr. Jason Hunter at (404) 909-6125, or e-mail him at jason.hunter@fema.dhs.gov.

Sincerely,

Jacky S. Bell
Division Director
Mitigation Division

Attachments: FtMyersBeach - 2023 compliance field tour - community determination tracker FINAL.xlsx

Hi Tammy,
I emailed all of the files through our system. Please let me know if you can't view the files. I was trying to do a dropbox but it wouldn't let me sign in and our IT guy is not here today so I would need to send the files on Tuesday if you can't view what I sent.

Hi Tammy,

I just sent over the files to your IT department and included you on the email so you are aware that it was sent.

HI Tammy,

Can I please have the emails of the personnel that will need to access these files as I need to send the link directly to that person.

Kristin,

Our IT department need to download the documents. Are you able to grant access to the folder to Ivette?

Thanks,

Attachments: SD Initial Determinations MASTER FILE DO NOT DELETE.xlsx

Hi Jackie,

I have been able to finally start chiseling away at my SD list. Attached is my updated list. I am trying to go through and mark off any structure that I can easily verify that is no longer considered substantially damaged or has been demoed. Once I get through this, I will need to go do field inspections to verify work done without permits.

Hey Kristin,

Hope this finds you well.

Checking in with you regarding any updates to the permitting and recovery progress to your community and that you can provide to me since July. 2023.
Best to you
Jackie

Subject: RE: Fort Myers Beach Hurricane Ian SI/SD data 022924 community updates

That is actually what I am in the process of doing adding permits to the SD list. That will take me a couple of weeks to complete. I am first going through the list to remove all structures no longer determined to be SD, my next step is to go in the field and gather data and then update with permit numbers or code cases.

Building F.A.Q. : https://www.fortmyersbeachfl.gov/faq.aspx?TID3

Subject: RE: Fort Myers Beach Hurricane Ian SI/SD data 022924 community updates

Kristin,

Thank you for submitting this information. When you get back from leave, if we can get both documents combined into one. There are addresses on this document received today that are not included in the previous document. I took the liberty to start the draft document with the required information/fields.

We are ONLY looking for the following information:

- Number of permits issued for SD properties impacted by Hurricane Ian located within the floodplain:
  - Property **must be located** in SFHA (A, AE, V, VE, etc.),
  - Property is **50% or more damage,**
    - Including appeals
  - Progress in the rebuilding (permits issued, inspection, appeals, violations, etc.),
  - Property compliance (final CO issued, elevated, demolished, etc.)

This will be an ongoing requirement going forward for all disasters. Enjoy your time off and don't worry about work and this information. We can discuss it further when you get back.

Sincerely,

Cristina A. Muresan Trott (Pop), CGM

Hi Jackie,

I have been able to finally start chiseling away at my SD list. Attached is my updated list. I am trying to go through and mark off any structure that I can easily verify that is no longer considered substantially damaged or has been demoed. Once I get through this, I will need to go do field inspections to verify work done without permits.

Hey Kristin,
Hope this finds you well.

Checking in with you regarding any updates to the permitting and recovery progress to your community and that you can provide to me since July. 2023.
Best to you
Jackie

Good Morning,

We have 3 people from our community interested in attending the workshop.
Kristin Schumacher- Kristin.schumacher@fmbgov.com

Jason Smalley- jsmalley@fmbgov.com
Joe Specht- jspecht@fmbgov.com

I have attemped to fill out the plan template as much as possible. I think we really need the guidance on being able to properly implement the plan.

Subject: RE: Invitation - Substantial Damage Administrative Procedures (SDAP) Workshop - Lee County
Importance: High

Good afternoon everyone,

I am following up to determine interest in attending the SDAP Training scheduled to take place on Wednesday, April 10th, 2024, at the Lee County - Building Dept., 1500 Monroe St (1st floor training room), Fort Myers, FL 33901. Workshop is scheduled to take place between 8am – 4:30pm. As of today, we have not received an email confirming or declining interest from your community.

Please confirm workshop attendance by April 1, 2024, by email to cristina.muresantrott@fema.dhs.gov and fema-r4-fmi@fema.dhs.gov, be sure to include name and email address for those who plan to attend. We recommend attendance of at least the Floodplain Administrator, Building Official and Emergency Management representative.

1. Please have participants (one from each community) fill out the attached SDAP Plan Template (as much as possible) and return it no later than April 1, 2024, via email,
2. Complete the attached pre-workshop survey, your responses can help us tailor the training to your community's needs.

As part of participation, we are requesting each community to submit a completed draft SDAP for your community and Survey (documents attached) back to me and FEMA-R4-FMI fema-r4-fmi@fema.dhs.gov by April 1. This will allow support staff to review the information prior to the upcoming training.

Let me know if you have any questions. Have a wonderful day!

Sincerely,

Cristina A. Muresan Trott (Pop),

Subject: Invitation - Substantial Damage Administrative Procedures (SDAP) Workshop - Lee County
Importance: High

Good afternoon,

You have been invited to attend the FEMA and FDEM Floodplain *Substantial Damage Administrative Procedures (SDAP) Workshop,* scheduled to take place on the Wednesday, April 10th , 2024, at the Lee County - Building Dept., 1500 Monroe St (1st floor training room), Fort Myers, FL 33901. Workshop is scheduled to take place between 8am – 4:30pm. The workshop will offer 7-hours of continuing education credit for Certified Floodplain Managers®

Requested action:

1. Please confirm workshop attendance by April 1, 2024, by email to cristina.muresantrott@fema.dhs.gov and fema-r4-fmi@fema.dhs.gov, be sure to include name and email address for those who plan to attend. We recommend attendance of at least the Floodplain Administrator, Building Official and Emergency Management representative,

2. Please have participants (one from each community) fill out the attached SDAP Plan Template (as much as possible) and return it no later than April 1, 2024, via email,
3. Complete the attached pre-workshop survey or by clicking here, your responses can help us tailor the training to your community's needs.
    - The survey is divided into short sections that correspond with the attached SDAP Plan Template.
    - Microsoft work accounts are required for survey submittals.
    - If you cannot access the survey, a copy of the survey is attached.

A calendar invitation for the event will follow along with a copy of the agenda, parking, and luncheon information. Thank you and look forward to seeing you at the workshop.

Sincerely,

Cristina A. Muresan Trott (Pop), CGM

Subject: Request to Schedule Meeting: Update on Town of Fort Myers Beach NFIP CRS Rating

Good Afternoon:

My name is Crystal Paulk-Buchanan and I work in the Mitigation Division at FEMA Region 4.

I apologize for the short notice of this message.

I'm hoping you can assist me with coordinating a meeting/conference call with your chief executive to discuss the Town of Fort Myers Beach's National Flood Insurance Program's Community Rating System.

- The call would take place Thursday afternoon, March 28 after 11 a.m. and should last no more than 30 minutes.

Participants will include Region 4 Mitigation Division Director Jacky Bell and Floodplain Management and Insurance Branch Director Jason Hunter, Florida's State Hazard Mitigation Officer and NFIP Coordinator.

Once we have finalized the meeting time, I will follow up with a Calendar invitation with conference line and pin.

Thank You

Crystal
