

Capital Improvements Plan FY2015 Items and Comprehensive Plan
Goals, Policies and Objectives

Mound House

The Town's commitment to the Mound House is discussed throughout Chapter 13 of the Comprehensive Plan and is mentioned specifically in **Policy 11-B-3**. Increasing the level of recreational facilities is found in **Objective 10-D**.

Newton Park (seawall and shade structure)

Like the Mound House, the Newton Property is discussed in Chapter 13, and mentioned specifically in **Policy 11-B-3**. Increasing the level of recreational facilities is found in **Objective 10-D**. **Policy 6-B-8** discourages seawalls if they will have negative impacts on surrounding properties or the natural environment.

Implementation of Stormwater Master Plan

This item helps to maintain the stormwater LOS under **Policy 11-B-2** and carries out specific objectives of **Objective 9-F** and **Policy 3-D-7**.

Basin Based Project HMPG 1609

This drainage improvement project for older subdivisions with few or no engineered drainage works will help to maintain the stormwater LOS under **Policy 11-B-2**, and will help to address needs for stormwater planning needs identified in **Objectives 9-A** through **9-F**.

Road Resurfacing/Improvements

Policy 7-J-1 reserves the Rights-of-Way for underground utilities, sidewalks, bike paths, water accesses, on-street parking, public transit and for road improvements.

Times Square Design for Improvements (pavers, lighting, etc.)

Objective 3-D seeks to stimulate the redevelopment of Times Square, including provisions such as paver replacement in **Policy 3-D-3** for sidewalk improvements, and **Policy 3-D-6** for streetscape improvements such as the clock and light fixtures. This project furthers **Policy 7-E-1**.

Beach & Bay Access Improvements, Public Dock

The desire to improve beach access amenities is expressed in **Objectives 5-E, 6-H, 10-G**, and in **Policy 6-A-2**.

Water Utility

Objective 6-I covers the Water Supply, and seeks to provide sufficient quality and quantity of drinking water. Maintaining acceptable levels of service for potable water is an integral component of **Goal 8** and specifically **Objective 8-B**.
